EDUCATION

University of Maryland College Park

College Park, Maryland

Bachelor of Science, Computer Science

Expected: May 2027

Relevant Courses: Data Structures & Algorithms, Object-Oriented Programming, Computer Systems, Calculus I/II

Programs: QUEST Honors Program, MLT Ascend Scholar

Affiliations: National Society of Black Engineers, ColorStack@UMD, Code Black

SKILLS

Languages: Python, Java, JavaScript, HTML, CSS, C, Assembly, OCaml, C#, Blazor

Tools/Frameworks: Claude Code, Git, Cursor, SQL, Node.js, Power BI, AWS RDS, MCP Services, FastAPI, Linux, RestAPI, .NET

PROFESSIONAL EXPERIENCE

JP Morgan Chase & Co

Illinois, Chicago

Software Engineer Program Intern - Corporate Technology Org

June 2026 - August 2026

- Built an LLM-powered agentic AI system using JPMC's internal MCP SDK to automate client dataset onboarding for the RDaaS platform, replacing a manual, person-dependent workflow across ~20 data domains
- Architected and deployed an MCP server with 16 tools across 4 skill domains (status, data, definitions, onboarding) enabling plain-English interaction with Smart Flow and RDaaS enterprise backend systems and deployed on AWS ECS
- Developed a three-layer AI Challenge application (customer-facing frontend, business logic layer, persistent database) leveraging GitHub Copilot and LLM tooling while maintaining full ownership of all AI-generated code

Safo Sports Group

College Park, Maryland

Founding Engineer

June 2025 - Present

- Co-founded an AI-powered NIL platform connecting college athletes with brands; built the React/TypeScript frontend, Spring Boot backend, matching service, secure auth, and real-time profile management.
- Designed and shipped a hybrid rule-based + LLM matching engine (FastAPI, Anthropic Claude API) that scores athlete-brand fit across sport, reach, engagement, and geography, deployed on AWS ECS behind a Spring Boot proxy.

DC Department of Human Services (DHS)

Washington, DC

Software Developer Intern (Coding it Forward Fellow)

Jan 2026 – Mar 2026

- Implemented role-based access control (RBAC) for an internal DHS portal using Blazor Server (.NET 9) and ASP.NET Core Identity, defining 3 roles with claims-based authorization and policy-driven routing.
- Improved system observability by troubleshooting monitoring and alerting configurations, strengthening notification routing and incident response readiness.

PricewaterhouseCoopers LLP (PWC)

Washington, DC

Cloud & AI Engineering Intern

June 2025 - July 2025

- Analyzed 10,000+ user-interaction/performance rows in Power BI using machine learning metrics to surface behavior patterns, boosting AI agent adaptability (+27%) and engagement (+15%).
- Collaborated with 4+ cross-functional teams applying MLOps and human-centered AI to streamline usability, lift feature discoverability (+40%), and add real-time feedback loops that cut model error (-12%) and iteration time (-30%)..

TECHNICAL PROJECTS

Internal Benefits Review Portal | Blazor (.NET 9), ASP.NET, SQL Server, Power BI, DAX

Jan 2026 – Mar 2026

- Authored a system design document for a centralized internal portal, translating DHS's operational needs (processing 83,000+ monthly SNAP households) into an authentication, authorization, and reporting architecture.

CareerVillage AI Coach Prototype | React, Node.js, OpenAI GPT-4, JSearch API, Power BI

June 2025 - July 2025

- Engineered an AI-powered career guidance platform for 1,000+ underserved learners, integrating mock interview simulations, resume review bots, and personalized goal-tracking workflows.
- Leveraged GPT-4 and Power BI to analyze behavioral data across 3 core features, achieving 62.6% user retention, 2× increase in mock interview completions, and improved resume tool engagement by 40%.

LEADERSHIP & PROFESSIONAL DEVELOPMENT

QUEST Honors Program, Quest Student, College Park, MD

January 2024 - Present

- Participated in interdisciplinary projects combining tech, business, and data-driven strategy.

UMD Code Black, Treasurer, College Park, MD

January 2024 - Present

- Managed procurement and catering for org events, coordinating vendor communications and tax-exempt purchasing.
